

Junior Developer

Cole Graham

Objective

Aspiring to become a developer and programmer capable of creating many great things using various coding languages and tools. Constantly learning and working on coding projects in my free time has allowed me to learn a significant amount. I'm always open to learn and love to do so.

Experience

December 2021 - Current

Detention Officer

High stress work environment requiring precise coordination between team members to conduct facility operations in a safe manner. I have learned how to excel in high stress conditions and have developed a team-oriented mindset within this field of work, as team cooperation is paramount to success. This job has also required me to work within Microsoft Excel and Word.

1/13/2020 - 8/13/2021

Voter Registration Specialist

Consistent and accurate database entering was a constant daily task. Accuracy and attention to detail was of utmost importance. Teamwork was also essential during elections as the high influx of work required the entire team's cooperation and coordination for success. We used multiple databases and software such as Microsoft Excel and Word to conduct our work daily.

Education

High School Diploma Equivalency Achieved

Mohave Community College
| Kingman, AZ

AS, Computer Science in Progress

Mohave Community College |
Kingman, Az |
Expected January 2025

Skills

- C++
- JS
- HTML
- CSS
- 70 WPM

Interests

I am quite interested in technology as a whole and how quickly it advances. Day by day we reach new heights of technology that I wish to properly understand to my fullest extent.
